

PALAIS ROYALE

BALLROOM

To Whom It May Concern:

Palais Royale is an event venue in Toronto that caters to all kinds of events. With every event we must serve water. We were going through an incredible amount of glass and plastic water bottles, not just for our guests, but for our large staff as well.

Having now made the switch to **Q** Water, we are not only helping the environment by greening our buying practices, but it is saving us hundreds of dollars as well. And of course the water tastes excellent... The still water is very fresh and clean and the sparkling water is perfect. The space it saves us in inventory has been reduced considerably and **Q** Water representatives always respond to our needs in a timely fashion.

We recommend **Q** water and are happy with their company.

Best regards,

Joseph Borg
